Jenny Minchow, DHHS-MLTC	Joyce Schmeeckle, Evaluator
Kevin Borchers, Methodist Hospital	Linda Wittmuss, DHHS-DBH
Marcia Mueting, NPA	Ming Qu, DHHS-DPH
Peg Ogea-Ginsburg, DHHS-DPH	Rachel Houseman, NeHII
Todd Stull, DHHS-DBH	Will Schmeeckle, Evaluator

Agenda Item	Discussion	Action
Collaborative Efforts	Ashley shared with the group that the training and education component will be funded through the DOJ Harold Rogers Grant and the CDC PDO Pfs Grant. The Harold Rogers Grant provides funding for NeHII to have a dedicated person carry out the training components.	NA
NeHII Training Updates	NeHII has hired Kevin Borchers as the PDMP Director, starting June 13, 2016. Kevin will be the lead on coordinating the training/education components for the implementation and use of the PDMP. NeHII HIE Clinical team available as a training resource as well, they utilize a multi-media methods (WebEx, small/large group training and one-to-one training).	NA
Outreach/Training Activities	<p>This group will be instrumental in the development of a training plan. Academic detailing is a term that is used to describe the outreach and training to users of the PDMP system. This is a term that you will hear more often. There will also be work done to create an awareness to the users of the PDMP system as well as the general public.</p> <p>There was discussion about the scope of the trainings with suggestions to consider having a variety of ways to reach users including: web-based on demand and webinars, small groups, large groups, staff meetings, and individuals training sessions. It was suggested to have the training approved for CME's. Further discussion regarding pre and post testing and possibly link with user access step. The focus will be trainings for dispensers then prescribers, although it was suggested to do training at the same time for both target audiences. It was also mentioned to reach out to pharmacy colleges to begin discussions of getting the user training as part of the coursework.</p>	<p>Create training plan and awareness campaign</p> <p>Amy look into CME process</p>

Next steps	Agenda items for next meeting include: 1) scope of the training & methods; 2) timeline of training; 3) steps to implement training	Monthly meeting
